Retail Partners

Over the past 10 years, **we've helped over 10,000 retailers boost their trial, travel, and impulse sales with our Gravity Pack program**, achieving an average category sales increase of 125%. Let us show you how it works, so you can replicate this success in your business. If it worked for them, it can work for you too.

01

Introduction

At **Big Brands Inc.**, we know that most travel sections in retail stores are an afterthought leaving them cluttered and underperforming.

Wire dump bins make it hard for customers to find what they need, and without access to a wide selection, it's difficult to make the section presentable and worthwhile.

That's where Big Brands comes in.

As Canada's **largest** wholesaler of travel and travel-sized products, we give retailers access to the **best selection** of name-brand essentials in mini form. But we don't stop at just supplying products—we help you **merchandise smarter**.

Meet Gravity Packs

Our **Gravity Pack merchandising system** transforms disorganized travel sections into eye-catching, easy-to-shop displays. Instead of rummaging through bins, customers see neatly arranged, category-sorted products that increase impulse purchases and basket size.

A Simple Plan to Boost Sales

1. **Choose Your Assortment** – We help you pick the right mix of travel-size products for your store.
2. **Upgrade Your Display** – Replace wire bins with our Gravity Pack system for a clean, professional look.
 - a. **Tip:** Save valuable retail shelving space with our floor displays!
3. **Watch Sales Grow** – A well-organized travel section drives more purchases and improves your margins.

With Big Brands Inc., you get more than just products—you get a **partner** dedicated to making your travel section work for you. Let's turn that cluttered corner into a **high-performing part of your store**.

Gravity Pack Floor Shipper Displays

Want to sell more without taking up shelf space? Floor Shippers are your secret weapon. Here's why they work so well:

- They grab attention where people walk the most
- They sit right where customers make buying choices
- They make your products easy to see and grab

Think of Floor Shippers like tiny stores within your store. They turn empty floor space into money-making spots.

Give customers exactly what they want, when they want it.

Our Floor Shippers make it simple:

- We group similar items together
- Everything matches a clear theme
- Customers can grab and go fast

Here's what makes them work:

- **Travel items? All in one spot**
- **Beauty stuff? Easy to find**
- **Health products? Right there**

Think of it like a mini store that changes with the seasons. Holiday coming up? We've got displays for that.

The colors and design work together to catch eyes and open wallets. It's like having a silent salesperson working 24/7.

Seasonal Spotlights

Seasons change and so do shopping trends. Understanding seasonal demand is key to staying ahead. Timing it right means maximizing sales. From winter essentials to summer must-haves, each season brings new opportunities to align your inventory with what customers are actively searching for. By anticipating their needs and stocking strategically, you can drive sales and keep customers coming back year-round.

Own The Season, Own Your Sales

- ✓ **Core Essentials**
Always prioritize must-haves for each season. Think allergy relief for spring, sun care for summer and cold remedies for winter.
- ✓ **Timely Trends**
Monitor emerging trends, such as eco-friendly products or limited-edition seasonal items, to draw in trend-conscious shoppers.
- ✓ **Cross-Selling Opportunities**
Pair high-demand products with complementary items. Display travel-size sunscreen alongside lip balm or vitamins with hand sanitizers.
- ✓ **Localized Relevance**
Tailor your seasonal selections to reflect regional needs, such as wildfire relief products in dry summers or extra-warm gear for colder climates.

Increase Revenue with Impulse Sales

Our impulse and checkout solutions are designed to maximize your sales potential by turning small, high-demand items into big wins at the register.

Case Stock

More Ways to Sell, More Ways to Profit

Gravity Packs move products fast, but they're not the only play. Pocket Strips and Clip Strips give you flexible, high-visibility options to drive impulse sales anywhere. Look for the CS and PS codes in the case stock pages to see which products are available in these formats.

Pocket Strips

Pocket Strips easily clip onto shelves, pegs, and high-traffic areas, ensuring essential products are prominently displayed for customers. Don't have shelf space? No worries! These strips are designed for grab-and-go sales.

Clip Strips

Clip Strips hang anywhere—aisle ends, checkout lanes, or next to complementary products—making add-ons effortless. They turn passive shoppers into buyers before they even realize it.

Color-coded symbols provide a quick reference to identify available product formats and packaging options at a glance:

GP GP = Gravity Pack

EA EA = Each (Bulk)

What Retailers Are Saying...

IDA Pharmacy - Waterdown

“

We now have a great representation in our travel section. Items come in excellent pre-packs that are easy to display. Easy online ordering process and the added benefit of regular visits from a representative made the experience very positive. 100% encouragement.

- Chris B.

Pharmasave - Ladysmith

“

I needed travel products and your company had tons of options. Our travel section is always stock and has never looked better. Reliability? Top-notch. If you're thinking about their products, go for it – it's a solid bet.

- Steve W.

Calgary CO-OP - Sherwood

“

I had been struggling to stock a full shelf display using our regular methods until I discovered your products. What stood out for me was the uniformly sized gravity dispensers, which made it incredibly easy to add and remove different items to our travel display as needed. The program has truly helped solve our stocking issue!

- Tanner V.
